ABOUT ME — I'm a 3D designer passionate about creating new products, exploring form through fashion and interior design, bringing ideas to life with motion design. I'm driven by the challenge of designing objects that look good and make sense functionally.

At the heart of my work is **empathy**. Knowing that a complex, unique individual is on the other side of the screen inspires me to adopt a multi-layered approach to creating.

PRINCIPAL PROJECTS — Product Visualization

Design and rendering of hyper-realistic 3D models for online catalogs.

Virtual Fashion Collection

Creation of a virtual clothing collection for digital environments, with realistic fabric simulations and motion graphics for social media campaigns.

Interior Design for Residential Spaces

3D design of home interiors with a focus on realistic visualization.
